system

Wall-mounted cable display systems offer the same stylish and effective method for showcasing your corporate literature as the cable window system, creating a unique and cost-effective display with several fixing variants available. Couple this with a lighting system for a truly contemporary and streamlined display.

Self-Select option (Ref. S403)

This is a unique slip-on 15mm deep unit which creates an instant ready to use A4 leaflet dispenser (€6.50 ea.)

# light panels

Our brand new bulb-free LIGHT PANEL will illuminate any window or office space. We offer three types of design in cable or wallmounted. One design fits using the standard cable centres which means they can be fitted directly onto your existing cables. The other design (which has a bevelled edge and needs a wider cable centre) also has a wall mounted option. The panels are 14mm deep and use low voltage LED's which have a minimum life expectancy of 60 - 100,000 hours!

## LIGHT PANELS FOR CABLES

A4 light panels to fit under normal cable centres

A4	portrait/landscape	kits

Simple to install, displaying posters couldn't be easier. Click open the frame edges and remove the clear PVC cover sheet. Place your poster within the frame. Then replace the clear PVC cover sheet and close the snap frame (each frame comes complete with mounting holes, fixing screws and rawlplugs as standard).

Poster frames can be used both indoors and outdoors. Constructed from aluminium, they are rust-proof, the backs made from polypropylene and the front cover is PVC. Lamination of posters is advised if frames are to be used outdoors. Frames will not keep out open rain.

SIZE	MEASUREMENT	PROFILE
A4	297 x 210mm	25mm
A3	420 x 297mm	30mm
A2	420 x 594mm	30mm
A1	594 x 841mm	30mm
A0	841 x 1189mm	32mm
