

ALUMINIUM SNAP FRAMES

Simple to install, displaying posters couldn't be easier. Click open the aluminium frame edges and remove the clear PVC cover sheet. Place your poster within the frame. Then replace the clear PVC cover sheet and close the snap frame (each frame comes complete with mounting holes, fixing screws and wall-plugs as standard).

Poster frames can be used both indoors and outdoors*. Constructed from aluminium, they are rust-proof, the backs made from polypropylene and the front cover is PVC.

*Lamination of posters is advised if frames are to be used outdoors. Frames will not keep out open rain.
